Chairman OOMMAA Group of Companies.

Partner Schengen/ Europe

MESSAGE FROM THE MANAGEMENT

Recruitment Consultant

Chief Consultant

A commonly asked question, "How has OOMMAA Group managed to thrive so much in such a short time? My response to this is, "As the Chairman of OOMMAA Group of Companies, I have Business towards corporate prosperity and doing recognition since 2002, in the industry of contracting Supply, trading, facility management & recruitment. I have travelled to numerous countries to determine the key to success of peer companies in these fields."

OOMMAA initiated its journey with only 4 employees in the UAE, in 2002 and today we are proud of establishing 24 companies in the Gulf Region, Asian Region and Europe Region with recruitment and manpower providing to different companies. The vision and commitment aims to consistently provide exceptional quality of work that is punctual dependable and financially productive lead by a team that is available constantly I was able OOMMAA in achieving its success by embedding the following core values that I strongly believe in on my life experiences:

As a result, our clients honor us with their continuous loyalty. By the end of 2025, my vision for OOMMAA Group is to be recognized as one of the top ten companies in the Gulf Region, Asia Region and Europe Region. After extensive travel and in-depth consultations across various countries, it has become clear that our clients face significant challenges due to the unskilled manpower provided to them. This issue is critical and demands a strategic approach to ensure our clients receive the highest quality service, while also addressing the needs and growth of our employees. Strategic Initiative for Resolving Employer and Employee Issues to address this issue comprehensively, we have devised a robust strategy that involves several key initiatives to ensure our workforce meets and exceeds the skill requirements of our clients. This strategy will be rolled out in phases over the next ten years, ensuring sustainable growth and continuous improvement in the quality of our workforce and will unfold over the next decade with the following steps:

- **Affiliation with Recruiting Agencies:** Partner with reputable recruiting agencies to ensure a steady supply of candidates with the potential to be trained to our standards. Establish clear criteria and expectations with these agencies to ensure they understand our quality and skill requirements. Years 1-3: Initiate partnerships with recruiting agencies and establish the first technical trade test centers. Begin pilot programs for language training in key regions.
- **Establishing Technical Trade Test Centers:** Set up technical trade test centers to evaluate and certify the skills of potential employees before they are placed with clients. Develop comprehensive testing protocols and standards to ensure these evaluations are rigorous and aligned with industry requirements. Years 4-6: Expand the network of trade test centers and language institutes. Develop advanced training programs based on feedback from initial phases.
- **Affiliation with Language Institutes:** Collaborate with language institutes to provide language training for our employees, ensuring they can communicate effectively in their work environments. Offer courses that focus on both general language skills and industry-specific terminology to enhance communication and performance. Years 7-10: Consolidate and optimize the affiliations and training programs. Scale the strategy to cover all regions and ensure all employees undergo rigorous testing and training. By following this strategic plan, we anticipate the following outcomes:
- A highly skilled and certified workforce that meets the exact needs of our clients.
Improved client satisfaction and retention due to the high quality of manpower provided.
Enhanced employee development and satisfaction through continuous training and upskilling opportunities.
A stronger reputation in the industry as a provider of top-tier skilled manpower.
This comprehensive approach will not only resolve the current issues but will also position us as leaders in the industry, known for our commitment to quality and excellence. Together, we can achieve 100% business success by ensuring our clients receive the skilled manpower they deserve and our employees receive the training and development they need to excel.

At OOMMAA Group, we focus on leveraging our knowledge, experience, and customized assessment tools. Our goal is always to make long-term placements. As a strategic recruiting partner, we spend time listening to you to help you employ and allocate the talent you need today and in the future.

MISSION

To establish long-term relationships with our clients and partners by providing a skilled and experienced workforce and employing the best resources.

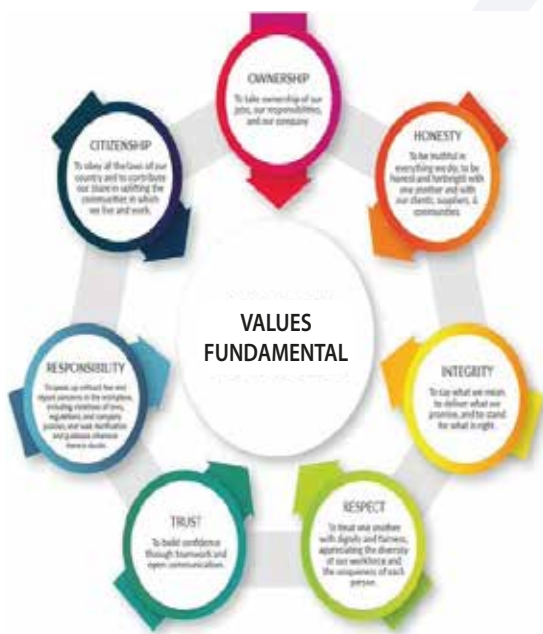

VISION

To be one of the leaders in labor supply promotion and contracting, trading, facilities management and recruitment in the Middle East and around the world.

CORE VALUES

Our core values extend throughout the organization. These principles guide us to succeed in our projects and will serve us well in the future, from site execution to project management, to meet customer demands.

OUR VALUES

EXCELLENCE

Customer satisfaction is our ultimate goal

RESPECT

We treat all people and the planet with respect and dignity. We do our best to conserve resources on a personal and professional level.

INTEGRITY

We conduct our business with honesty and consistency.

TEAMWORK

We are a team with one purpose

INNOVATION

Our approach to create sustainable value for our stakeholders

LEARNING

We never stop learning

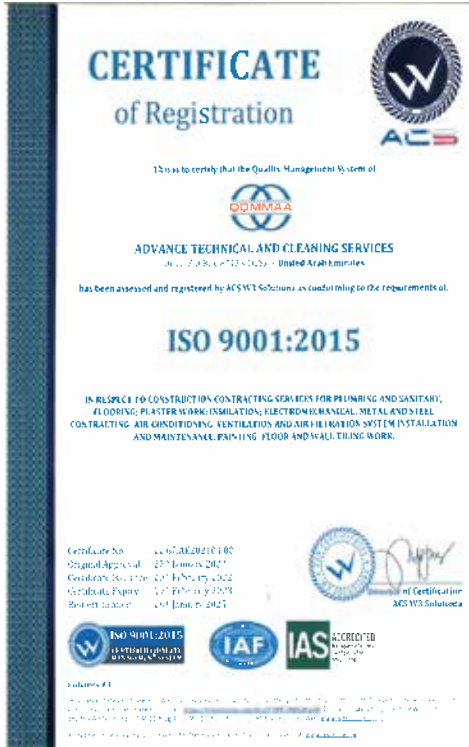

HEALTH, SAFETY AND ENVIRONMENT

HSE POLICY:

Accidents can be prevented. Health, safety and environmental protection is an integral part of corporate objectives. Management of health, safety and environmental protection is a line of responsibility. OOMMAA will strive to implement this policy through corporate strategies, action plans, motivation, and through the participation of all its members and other associates duly supported by appropriate education and training.

HEALTH AND SAFETY:

The health and safety of our employees is an integral part of our culture. That is why our Health and Safety Policy is incorporated into our Code of Business Conduct and Ethics. We seek to create a work environment and work systems that enable all employees and customers to feel safe and secure.

Who we are:

OOMMAA is the leading manpower provider in the United Arab Emirates. Established in the United Arab Emirates in 2002, OOMMAA is proud to provide labor supply contracts with highly skilled professionals and skilled workers for your businesses. We guarantee end-to-end local labor partners with skilled workforce in thousands employees can meet your business objectives with all needs different clients / recruitment and labour supply.

Our experienced team has deployed workers at airports, ports, logistics centers, construction sites, manufacturing plants and commercial outlets throughout the UAE and European countries. We have internationally compliant health and safety standards and in-house technical training followed by regular refresher work.

WE TRAINED OUR WORKFORCE:

After the screening and Trade test, we proceed to the theoretical and practical test based on a training manual already provided by the institution. Once the instructor has completed and passed the test, we proceed with the security measures. The manpower we provide is qualified, trained and certified according to industry standards. They are committed to health and safety and perform the work without giving any chance of accidents.

OOMMAA as a labor supply company:

We are one of the renowned manpower supply companies in the UAE, with over 20 years of experience in the manpower recruitment and manpower supply industry. We provide quality and perfect manpower supply services for the general and technical service needs of almost all sectors in the UAE on a short and long term basis.

We are a UAE-registered manpower supply company with immense experience in providing quality manpower services for major industries such as civil, construction, electrical and mechanical.

MANPOWER SUPPLY

We are a UAE-registered manpower supply company with immense experience in providing quality manpower services for major industries such as civil, construction, electrical and mechanical.

WHY IS OOMMAA THE BEST COMPANY IN UAE?

We have been working in this industry for 20 years, so we have in-depth knowledge of the job market. We understand industry trends and help you make an informed decision to save time, money and material to complete projects in time.

If you need a contractor or hire labor for yourself, you have to maintain a human resources department, which can cost you a lot of money every month. If you hire us, we will take care of all the procedures so that you do not have to maintain a human resources department. This way you will save a lot of money.

WE PROVIDE THE BEST TECHNICIANS.

We understand the needs of the employer and the employee, so we can negotiate better. We know exactly what the employee wants and at what price he or she may be ready. We conduct the negotiations on your behalf and try to find the best wage for you.

We offer all kinds of manpower supply services according to needs, both short-term and long-term. We offer our labor supply services even for a single day. Therefore, you do not have to worry about the period of time you use our services.

HOW DO WE HIRE?

Before hiring, we conduct proper screening and testing of the candidate's skills so that we get a reliable workforce. Our team of experts check the background of workers so that we can get an idea of workers' past performance.

We have adopted a cycle of the recruitment process such as advertising, screening resumes, vetting and conducting the interview. After that, we employ them in OOMMAA's ongoing projects in the home country, Qatar, India and Pakistan Gulf / Asia & Europe.

When the customer turns to our services for the supply of labor, they only have to deal with one company instead of dealing with several potential employees. We understand the client's needs and try to provide the best possible manpower solutions based on their 100% skills.

Provision of mechanical labor:

Our 20 years of experience in the mechanical sector of labor supply services in Dubai. We provide temporary or permanent construction labor, such as our certified and highly professional mechanics, electrical, plumbing, civil, and laborers.

Provision of plumbing labor:

Our plumbing manpower experts provide guaranteed materials for firefighting, pipe fitting, and plumbing fixing and testing according to customer requirements. You can get our plumbing labor supply services in the UAE on a short-term or long-term basis.

OOMMAA Service provider company in the United Arab Emirates:

We are one of the leading service provider companies in the United Arab Emirates. We offer superior quality services throughout the UAE emirates. We cooperate with various companies in various industries on both long and short term basis.

OUR SERVICES:

for construction, hospitality, security and other white-collar jobs. With a focus on developing and fostering strong client relationships, OOMMAA Manpower Provider is able to provide the perfect services for clients' growing needs.

OOMMAA: High Quality Welders for Every Requirement

At OOMMAA, we pride ourselves on having a team of highly skilled and versatile welders committed to delivering exceptional quality and precision on every project. Our wide range of welding expertise ensures that we can meet all your welding needs with the highest standards of excellence. Here is a closer look at the types of welders we have and the specialized skills they bring to our team:

Welder - "Multiprocess" (AI)

Our Welders - "Multi-Process," specializing in Stainless Steel (AI) are experts in working with this corrosion-resistant material. They handle various welding techniques and processes to ensure strong, clean and durable welds perfect for applications in industries such as food processing, pharmaceuticals and construction.

Welder - "Multiprocess" (CS)

Our "Multiprocess" Welders, specializing in Carbon Steel (CS) bring extensive experience in handling this versatile and widely used material. They ensure strong and reliable welds essential for structural projects, pipelines and industrial machinery.

Welding Coordinator

Our Welding Coordinators are experienced professionals who oversee and coordinate all on-site welding activities. They ensure that every welding task is performed to the highest standards, maintaining safety, quality and efficiency. Their leadership ensures that our projects are completed on time and on budget.

TIG Welder (GTAW)

Our Tungsten Inert Gas (TIG) welders are specialists in the tungsten inert gas (GTAW) arc welding process. They excel in producing precise, high-quality welds on a variety of metals, including aluminum, magnesium, and stainless steel. This process is ideal for projects that require meticulous craftsmanship and minimal distortion.

MIG Welder (GTAW)

Although often known for the metal gas arc welding (GMAW) process, our Metal Inert Gas (MIG) Welders also have expertise in GTAW. This dual expertise enables them to tackle a wide range of welding tasks, providing flexibility and high-quality results for various project requirements.

Welder - "Multiprocessing" (GTAW)

Our "Multiprocess" welders, skilled in GTAW are versatile professionals who can handle various materials and welding positions. Their adaptability makes them invaluable for projects that require precision and exhibility, from intricate components to large-scale constructions scale.

Our Welders-"Multi-Process," experts in coated electrode arc welding (SMAW) are skilled in this traditional but highly effective welding method. They excel in producing strong and durable welds in various environments, making them ideal for repair, maintenance and heavy construction work.

Electrode Welder (SMAW) - Pipes

Specializing in SMAW for pipe welding, our Electrode Welders ensure safe and tight joints in piping systems. Their expertise is crucial for industries such as oil and gas, water treatment, and chemical processing, where precision and reliability are critical.

Electrode Welder (SMAW) - Plates/Sheets

Our Electrode Welders focused on SMAW for plate welding are skilled at joining flat pieces of metal, often used in structural applications. Their work is critical in creating strong structures for buildings, bridges and other infrastructure projects.

OOMMAA: Exceptional Engineering Workforce for Every Project

At OOMMAA, we are proud to have a diverse and highly qualified team of engineering professionals dedicated to providing exceptional quality and precision in a wide range of projects. Our comprehensive expertise ensures that we can meet all your engineering needs with the highest standards of excellence. Here is a detailed look at the types of engineering workers we have and the specialized skills they bring to our team:

Fire safety officer

Our Fire Safety Officers are trained to monitor fire hazards during high-risk activities, ensuring immediate response and compliance with safety protocols to prevent accidents and ensure a safe work environment.

Civil Engineer

Our Civil Engineers design, construct and maintain infrastructure projects such as roads, bridges and buildings. They ensure structural integrity and compliance with all regulatory standards.

MEP Engineer

Our MEP (Mechanical, Electrical, and Plumbing) Engineers specialize in the integrated design and implementation of building systems, ensuring efficient and reliable performance.

Hydraulic Engineer

Our Hydraulic Engineers design and maintain piping systems for various industries, ensuring the safe and efficient transport of fluids and gases.

HVAC Engineer

Our HVAC (Heating, Ventilation and Air Conditioning) Engineers design and maintain air conditioning systems, ensuring comfort, air quality and energy efficiency.

Design Engineer

Our Design Engineers create detailed engineering plans and specifications, ensuring that all aspects of a project are carefully planned and executed.

Project Manager

Our Project Managers oversee the entire lifecycle of projects, ensuring that they are completed on time, on budget and to the highest quality standards.

Welding Engineer

Our Welding Engineers are experts in various welding techniques and ensure that all welding activities meet industry standards for strength and safety.

Planning Engineer

Our Planning Engineers develop plans detailed project plans, schedules, and strategies for allocating of resources to ensure the timely and efficient completion of projects.

QA & QC Engineer

Our Quality Assurance and Quality Control Engineers ensure that all projects meet the highest quality standards and comply with all relevant regulations and specifications.

Structural Engineer

Our structural engineers design and analyze structural elements to ensure that they can withstand the stresses and forces they encounter, ensuring safety and durability.

Electrical Engineer

Our electrical engineers design and schedule project related requirements and safety and security measures. They ensure structural integrity and compliance with all regulations

Civil Engineer

Our Civil Engineers design, construct and maintain infrastructure projects such as roads, bridges and buildings. They ensure structural integrity and compliance with all regulatory standards.

Procurement Engineers

Our Procurement Engineers arrange and provide all the site-required materials and keep negotiations with the site project manager.

Construction Managers

Our Construction Managers oversee all aspects of the construction projects, ensuring that they are completed on time, within budget and with the highest quality standards.

Fire Protection Engineers

Our Fire Engineers design and implement systems to prevent, detect and mitigate fire hazards, ensuring the safety of people and property.

Instrument Engineer

Our Instrument Engineers design and maintain instruments and control systems, ensuring accurate and reliable measurements for various industrial processes.

OOMMAA: High Quality Technician

At OOMMAA, we pride ourselves on having a team of highly skilled and versatile workers, committed to delivering exceptional quality and precision in every project. Our wide range of electrical expertise ensures that we can meet all your needs with the highest standards of excellence. Here is a closer look at the types of electrical workers we have and the specialized skills they bring to our team:

Electricians

Our Electricians are experts in the design, installation and maintenance of electrical systems for residential buildings, commercial and industrial. They ensure safe and efficient systems, complying with all industry regulations and standards.

Technicians

Our Technicians are highly trained professionals who handle a wide range of tasks, from repairs and maintenance to advanced diagnostics and troubleshooting problems. Their technical expertise is essential to ensure the optimal operation of all systems.

Cable Splicers

Our Cable Splicers specialize in the splicing and repair of electrical cables, ensuring safe and reliable. Their skills are crucial to maintaining the continuity and efficiency of electrical networks, particularly in applications at high voltage and industrial environments.

A/C Technicians

Our A/C Technicians are experienced in the installation, maintenance and repair of air conditioning systems. They ensure that cooling and heating systems operate efficiently, maintaining comfort and quality of indoor air.

Refrigeration and Air Conditioning Technicians

Our Air Conditioning Technicians are experienced leaders who coordinate and supervise all Refrigeration and Air Conditioning activities in the workplace.

They ensure that every task is performed with the highest standards of safety, quality and efficiency, ensuring that the projects are completed on time and on budget.

Civil - Construction Services

We provide different types of auxiliary labor according to the needs of the customer. Before committing to any work, we send an experienced project coordinator to the client's site to understand the type of project and the essential skills required. This process is done to provide manpower according to the requirements of the site, which ensures that both parties complete the work in a way that is correctly without any possibility of disputes.

Mechanical Engineers

Mechanical engineering is one of the most diverse industries. In every industry or sector, mechanical labor is required. We offer different types of mechanical contracts that can help you accomplish your work in the short or long term. Often, when your project cannot meet deadlines, you can use our contracting services until the end of the project.

Our mechanical contracting will prepare you to deliver on schedule and to achieve all your short-term goals.

PLUMBING SERVICES:

- Plumber**
- Fire Fighting**
- Pipe Fittings**
- Drainage line**
- Conveyor system**

Plumbing is one of the most important topics. Plumbing is necessary in any industry. We offer different types of plumbing services that can help you in short and long term. Our services will enable you to be ready to deliver on time and to achieve all your short-term goals. Because our plumbing teams have several years of experience, they are able to complete the job before the deadline.

Plumbing services

Installation and maintenance of plumbing systems: Our team ensures that your hydraulic systems are installed properly and maintained for optimal performance.

We offer comprehensive services, including system design, installation and periodic maintenance checks.

Pressure testing and leak detection: We use advanced techniques and equipment to identify and repair leaks in a timely manner, preventing water leaks and potential damage to your property.

Fire Fighting Fire suppression systems:

Our experts design, Install and maintain fire suppression systems tailored to the specific requirements of your property. We ensure compliance with standards and regulations for safety.

Sprinkler systems:

Comprehensive services for the installation and Maintenance of sprinkler systems, which provide effective fire protection and peace of mind.

Pipe fittings

Installation and repair of pipes: We offer installation and Professional pipe repair for various applications, ensuring safe and leak-free systems. Our services cover residential, commercial and industrial needs.

Welding and tube fabrication: Welding services and custom fabrication to meet your specific piping needs, delivered with precision and expertise.

TECHNICAL SERVICES:

Our technical support services are designed to meet specific maintenance needs:

Maintenance of elevators : Inspections and regular maintenance to ensure the safety and functionality of elevators.

FA/FF (Fire Alarm and Fire Fighting): Installation, maintenance and testing of fire alarm systems and fire-fighting equipment.

Access barriers and BMS (Building Management Systems):

Installation and maintenance of access control systems and building automation for increased security and efficient operational.

CCTV Systems: Installation and maintenance of systems of surveillance to ensure comprehensive property security.

UPS (Uninterruptible Power Supply) and Generators:

Installation, maintenance and repair of backup systems power supply to ensure continuous operation during power outages.

MAINTENANCE SERVICES:

We perform air conditioning system maintenance and general MEP maintenance in all types of properties on a contractual and annual basis. We cover:

HVAC Services: Ensuring optimal performance and efficiency of the heating, ventilation and air conditioning systems.

Mechanical services: Offering maintenance and repair complete of all mechanical systems.

Electrical services, including load balancing: Managing of electrical systems to ensure safe and efficient distribution of power.

Plumbing and drainage systems, irrigation: Maintenance and repair of plumbing systems, drainage lines, and systems for irrigation.

Pumps and water heaters: Installation, maintenance and repair of pumps and water heating systems to ensure their reliable operation.

As a security company, we provide world-class security guards to hotels, banks, malls businesses, showrooms, academic institutions, clinics, hospitals, semi-government and government and private organizations. Our highly trained staff is capable of handling any security event.

HOSPITALITY SERVICES

OOMMAA: Exceptional Workforce for Unparalleled Hospitality Service

Hotel Managers

Our Hotel Managers are experienced leaders who oversee all operations within a hotel, ensuring smooth operation, guest satisfaction and adherence to quality standards. They excel in staff management, in optimizing operations and improving the overall guest experience.

Front Desk Staff

Our Front Desk Staff is the first point of contact for guests, offering warm welcomes, efficient check-in and check-out processes efficient and handling inquiries and reservations with professionalism and courtesy. They ensure that every guest feels appreciated and well taken care of from the moment they arrive.

Housekeeping Staff

Our Housekeeping Staff is meticulous and attentive to detail, ensuring that all guest rooms and common areas are clean, tidy and well-maintained. They are dedicated to creating an environment comfortable and hygienic for guests, ensuring their satisfaction and comfort.

Restaurant and Catering Staff

Our Restaurant and Catering Staff is experienced in providing exceptional culinary experiences, from preparing and serving delicious meals to providing attentive and courteous service. They ensure that every dining experience is memorable and enjoyable for guests.

Event Coordinators

Our Event Coordinators are experts in planning and implementation of events, ensuring that every detail is handled meticulously. From weddings and conferences to private parties and events corporate events, they ensure that events are smooth and successful, exceeding clients' expectations.

Cooks and Kitchen Staff

Our Chefs and Kitchen Staff are passionate about excellence culinary excellence, creating delicious dishes with high-quality ingredients and innovative techniques. They ensure that every meal is a delightful culinary, satisfying diverse tastes and dietary requirements.

Maintenance Personnel

Our Maintenance Staff is experienced in solving any technical or maintenance problems that arise, ensuring that all facilities are in optimal condition. Their expertise ensures a safe, functional and pleasant environment for both guests and for the staff.

Concierge

Our Concierge Staff is knowledgeable and resourceful, providing guests with personalized recommendations and assistance with reservations, transportation and local attractions. They enhance the guest experience by offering valuable information and services tailored to individual preferences.

At OOMMAA, we are proud to have a team of highly skilled and versatile workers, committed to delivering exceptional quality and efficiency in every project. Our comprehensive expertise in agriculture ensures that we can meet all your needs with the highest standards of excellence. Here is a closer look at the types of agricultural workers we have and the specialized skills they bring to our team:

Landscaping Workers

Our Landscape Workers are experts in the transformation of outdoor spaces into aesthetically pleasing and functional area. They handle tasks such as preparing soil, planting, mulching, and the installation of irrigation, creating landscapes that are both beautiful and sustainable system.

Fruit Pickers and Packers

Our Fruit Pickers and Packers are efficient and precise in harvesting and packing fruit. They ensure that the produce is handled with care to maintain freshness and quality, ready for market distribution or further processing.

Greenhouse workers

Our Greenhouse Workers specialize in growing and care of plants in controlled environments. They are experts in managing temperature, humidity and light to optimize the plant growth, ensuring a constant supply of products and high-quality plants year-round.

Farmers

Our Farmers are experts in growing a variety of crops, managing livestock and adopting practices that are sustainable farming. They bring extensive knowledge in the management soil, crop rotation and modern farming techniques, ensuring high yields and quality products.

Gardeners

Our Gardeners are skilled in the care and maintenance of gardens and landscapes. They have expertise in planting, pruning and caring for a wide range of plants and flowers, ensuring vibrant and healthy gardens that enhance the beauty of any space.
